## Forsyth Parking Garage to Undergo Facelift

Urbana Holdings, a commercial real estate developer in Atlanta, will renovate a downtown Jacksonville parking garage and its adjoining retail space as part of a project to redo the office tower at 200 W. Forsyth St. formerly known as the SunTrust Building.

The \$2 million renovation will include general structural repairs, an exterior and ground level retail space facelift, the installation of automatic cashiers and elevator up grades, said Dan Proffitt, Urbana's Director of Development.

Proffitt said the renovations will begin immediately. Completion is expected in 12 to 18 months. The garage will remain open during the project.
